

UNIVERSITIES

case study: Bar Phoenix
location: The Hubs –Sheffield Hallam University

With a very tight timescale and large areas to reconfigure and refurbish this project was challenging. Demolishing the internal metal and glazed screens opened up a truly wonderful space that required an injection of colour to warm up it's stark interiors. Existing floors were reconfigured and enhanced; modern, bright and comfortable furniture were added and the walls and ceiling were painted in soft pastel shades. The transformation, on a strict budget, allowed IWCF to be innovative, flexible and to deliver a quality interior project on time and within budget to the approval of the client.
